World Organization to Investigate the Persecution of Falun Gong

— Petition —

END

the Evil CCP Live Organ Harvesting

This petition concerns the security
of the entire society and everyone in it.

EndOrganHarvesting.com

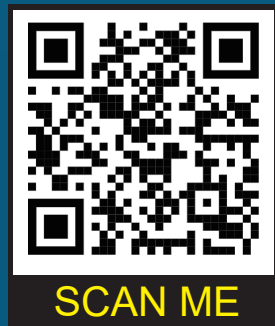

End the Evil CCP,

End the Organ Harvesting from Living Falun Gong Practitioners and Other People

The Chinese Communist Party (CCP) has been using inhumane methods, including most shockingly live organ harvesting, to brutally slaughter innocent Falun Gong practitioners and other groups of people. This atrocity has been ongoing for over two decades in Mainland China.

As shown by facts, the CCP is the largest devil ever seen in human history. It is the most evil criminal organization in the world. What is more terrifying is that the CCP has been using coercion, inducement, brainwashing, deception and other means to force the international community to remain silent on such crimes of persecution. It is actually harvesting souls of human beings, by destroying the moral baseline of humanity, thus leading the entire human race to destruction.

Let us work together to expose the CCP's crimes against humanity and to end the atrocities of live organ harvesting. We must bring all the criminals to justice, and to restore and uphold justice in our society.

Please sign this important petition now, and together we can put an end to the CCP's live organ harvesting and save innocent lives.

Over One Decade of Investigations on the CCP's Organ Harvesting from Living Falun Gong Practitioners

World Organization to Investigate the Persecution of Falun Gong (WOIPFG) was founded on Jan. 20, 2003. Our mission is to investigate the criminal conduct of all institutions, organizations and individuals involved in the persecution of Falun Gong; to bring such investigations, no matter how long it takes, no matter how far and deep we have to search, to full closure; to exercise fundamental principles of humanity; and to restore and uphold justice in society.

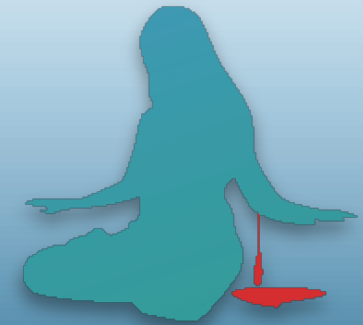

On March 9, 2006, the second day after allegations were reported in the media that the Chinese communist regime had been harvesting organs from living Falun Gong practitioners, WOIPFG launched a systematic investigation on Mainland China. As part of our continual investigative efforts over the last more than a dozen years, we've conducted tens of thousands of telephone investigations targeting 891 organ transplant hospitals and made multiple rounds of searches, studying and analyzing hundreds of thousands of media reports, medical papers, cached hospital webpages, and databases from more than 9,519 transplant medical specialists.

WOIPFG's investigations have reached even China's most senior leadership, including five standing committee members of the Chinese Communist Party Central Politburo and multiple high-ranking officials, such as a vice chairman of the Central Military Commission, a committee member of the Central Politburo, a defense minister, and a former head of the health division of the General Logistics Department of the People's Liberation Army.

Distribution Map of Hospitals Suspected of Participation in Live Organ Harvesting

The CCP's Genocidal State Crime of Organ Harvesting from Living Falun Gong Practitioners

Since 1999, the Chinese Communist Party (CCP) criminal group, headed by its former leader Jiang Zemin, has been manipulating the entire state apparatus, including the Party, the government, the military, the armed police, the judicial system and medical institutions, to carry out a genocidal massacre of Falun Gong practitioners through live organ harvesting for transplantation across China. This is a state crime initiated by Jiang Zemin and led by the CCP. This is a crime of genocide and a crime against humanity!

Conclusions from our investigation and analysis:

◆ **Conclusion One:** Organ harvesting against living Falun Gong practitioners is a systematic crime committed by the state, initiated by Jiang Zemin and led by the Chinese Communist regime.

◆ **Conclusion Two:** A massive amount of evidence indicates the existence of an enormous involuntary organ donor pool in China.

◆ **Conclusion Three:** After 1999, China's organ transplant industry grew explosively.

◆ **Conclusion Four:** The initial main source for the involuntary live organ donor bank in China is suspected to be the several million Falun Gong practitioners illegally detained for petitioning for their rights and freedom to practice Falun Gong.

◆ **Conclusion Five:** Our analysis of a large quantity of data suggests that a massive number of Falun Gong practitioners have been slaughtered by the CCP through live organ harvesting.
